## **GoviEx Closes Sprott-Led Financing**

VANCOUVER, CANADA – GoviEx Uranium Inc. Govind Friedland, Executive Chairman of the Company said, “This is an incredibly important day for the Company’s shareholders, employees, partners and stakeholders. Closing this financing recognizes the hard work and dedication of our team, and the financial support of the investor community. It also validates our decision to migrate to the TSX Venture Exchange and to pursue strategic transactions that demonstrate our commitment to growing our resource base and advancing our projects towards production.”

“We’d like to thank Sprott Global Resource Investments, Ltd. and all those investors who participated in this financing, and also those partners who have helped build the Company over the years, including Denison Mines, Ivanhoe Industries, Toshiba Corporation, Cameco Corporation and SEMAFO. We are grateful for all the support and will make every effort to build and realize value for all stakeholders.”

The net proceeds from the Private Placement will be used to fund continued exploration and development activities on the Company’s assets and for general corporate purposes. In addition, securities issued to subscribers in the United States will be subject to a hold period under the Securities Act of 1933 (the “**1933 Act**”) and can only be resold in strict compliance with the applicable exemptions from the registration requirements of the 1933 Act.

Each Unit consists of one (1) Class A common share and one (1) Class A common share purchase warrant (a “**Warrant**”) of the Company. Each Warrant entitles the holder to purchase one (1) Class A common share of the Company for US\$0.15 until December 19, 2021.
