

**Disclaimer:** Scientific and technical information relating to the Madaouela project may be found in the technical report entitled “An Updated Integrated Development Plan for the Madaouela Project, Niger” having an effective date of August 11, 2015 and revision date of August 20, 2015, and prepared for GoviEx by SRK Consulting (the “Report”) in accordance with National Instrument 43-101 – Standards of Disclosure for Mineral Projects (“NI 43-101”). Please refer to the full text of the Report, which is available for review under GoviEx’s profile on SEDAR at [www.sedar.com](http://www.sedar.com). Scientific and technical information relating to the Mutanga and Falea projects may be found in the technical report entitled, “NI 43-101 Technical Report on a Preliminary Economic Assessment of the Mutanga Uranium Project in Zambia”, dated November 30, 2017, prepared by SRK Consulting (UK) Limited for GoviEx Uranium Inc. and the technical report titled, “Technical Report on the Falea Uranium, Silver and Copper Deposit, Mali West Africa”, dated October 26, 2015, prepared by Roscoe Postle Associates Inc. for Denison Mines Corp, respectively. Both these technical reports are available for review on GoviEx’s website at [www.goviex.com](http://www.goviex.com).

### **Cautionary Statement Regarding Forward-Looking Statements**

This video may contain forward-looking information within the meaning of applicable securities laws. All information and statements other than statements of current or historical facts contained in this interview are forward-looking information. Such statements and information may be identified by words such as "about", "approximately", "may", "believes", "expects", "will", "intends", "should", "plans", "predicts", "potential", "projects", "anticipates", "estimates", "continues" or similar words or the negative thereof or other comparable terminology. Forward-looking statements are subject to various risks and uncertainties concerning the specific factors disclosed here and elsewhere in GoviEx's periodic filings with Canadian securities regulators. Information provided in this interview is necessarily summarized and may not contain all available material information.

Forward-looking statements include those related to the fundamentals of the uranium industry being very positive and expected growth in demand from anticipated increase in purchasing by nuclear utilities and the expected related continued recovery of the market price; anticipated completion of a Feasibility Study on the Madaouela Project by end of May 2022; any plans and the timing for the further exploration and develop of GoviEx’s project; and further exploration potential of the project areas.

Although the Company believes the expectations reflected in such forward-looking statements are based on reasonable assumptions, it can give no assurances that its expectations will be achieved. Such assumptions, which may prove incorrect, include the following: (i) that the Company will be successful in its exploration and development plans; (ii) that the Company will

be able to complete its planned CSR work as planned; and (iii) that the price of uranium will remain sufficiently high and the costs of advancing the Company's projects will remain sufficiently low so as to permit GoviEx to implement its business plans in a profitable manner.

Factors that could cause actual results to differ materially from expectations include (i) the inability of the Company to complete the exploration and development work on its projects as planned; (ii) potential delays due to COVID-19 restrictions; (iii) the failure of the Company's projects, for technical, logistical, labour-relations, or other reasons; (iv) a decrease in the price of uranium below what is necessary to sustain the Company's operations; (v) an increase in the Company's operating costs above what is necessary to sustain its operations; (vi) accidents, labour disputes, or the materialization of similar risks; (vii) a deterioration in capital market conditions that prevents the Company from raising the funds it requires on a timely basis; and (viii) generally, the Company's inability to develop and implement a successful business plan for any reason. In addition, the factors described or referred to in the section entitled "Risk Factors" in the MD&A for GoviEx for the year-ended December 31, 2020, available at [www.sedar.com](http://www.sedar.com), should be reviewed in conjunction with the information found in this interview.

Although GoviEx has attempted to identify important factors that could cause actual results, performance, or achievements to differ materially from those contained in the forward-looking statements, there can be other factors that cause results, performance, or achievements not to be as anticipated, estimated or intended. There can be no assurance that such information will prove to be accurate or that management's expectations or estimates of future developments, circumstances, or results will materialize. As a result of these risks and uncertainties, the results or events predicted in these forward looking statements may differ materially from actual results or events. Accordingly, readers should not place undue reliance on forward-looking statements. The forward-looking statements in this interview are made as of the date of this interview, and GoviEx disclaims any intention or obligation to update or revise such information, except as required by applicable law.

**Cautionary Note to United States Investors:** This interview and the disclosure contained herein does not constitute an offer to sell or the solicitation of an offer to buy securities of GoviEx Uranium Inc.
