## Notes to the Condensed Interim Consolidated Financial Statements

For the nine months ended September 30, 2023

(Stated in thousands of U.S. dollars except for shares and per share amounts)

---

### 1. Nature of Operations and Going Concern

GoviEx Uranium Inc. and its subsidiaries, "**GoviEx**" or the "**Company**," is a Canadian mineral resources company focused on the exploration and future development of uranium properties in Africa. The Company was incorporated in the British Virgin Islands on June 16, 2006, and continued under the Business Corporation Act (British Columbia) in Canada on March 1, 2011. The head office, principal address, registered and records office is located at 999 Canada Place, Suite 606, Vancouver, British Columbia, Canada, V6C 3E1.

The Company has one business segment, exploring mineral properties, with its primary projects in Niger and Zambia. The Company capitalizes acquisition costs only and expenses exploration and evaluation costs related to its mineral properties. The underlying value and the recoverability of the amounts recorded as mineral properties do not reflect current or future values. The Company's continued existence depends on the economic recoverability of mineral reserves and its ability to obtain funding to advance its uranium properties.

The Consolidated Financial Statements are prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for at least twelve months from the reporting period end. During the nine months ended September 30, 2023, the Company incurred a net loss of \$10,038 and used cash in operating activities of \$8,859 compared to a \$9,804 net loss and \$12,811 cash usage in the same period of 2022. As of September 30, 2023, the Company had cash of \$4,634 (December 31, 2022 - \$3,289) and working capital of \$4,040 (December 31, 2022 - \$2,976).

On July 26, 2023, Niger's incumbent president was detained by members of the presidential guard. The situation in Niger has been a subject of international concern. The Economic Community of West African States ("**ECOWAS**") has responded by imposing stringent sanctions against Niger on July 30, 2023, including closing borders and imposing certain banking restrictions until a democratically elected government is assembled.

The ongoing political uncertainty in Niger has increased perceived risk and posed challenges for international investments in the country. GoviEx continues to work on its ongoing debt financing efforts for the construction of a mine in Niger as well as continuing to seek off-take agreements during this more challenging environment. The continuation of the coup has and will continue to impose delays on these fronts.

The Company has no source of revenue and has significant cash requirements to maintain its mineral property interests, including area tax payments, and meet its administrative overhead needs. Although the Company has successfully raised funds in the past, there can be no assurance that it will be able to do so in the future. These factors represent material uncertainties that may cast significant doubt on the Company's ability to continue as a going concern.

These Consolidated Financial Statements do not reflect adjustments to the carrying value and classification of assets and liabilities that might be necessary in the event of going concern. Such adjustments could be material.

### 2. Significant Accounting Policies

#### a) Statement of compliance

These Consolidated Financial Statements have been prepared under International Accounting Standard 34, *Interim Financial Reporting*, using accounting policies consistent with International Financial Reporting Standards ("**IFRS**"). The Company's significant accounting policies applied in these Consolidated Financial Statements are consistent with those described in note 2 of the Company's audited consolidated financial statements for the year ended December 31, 2022.

#### b) Accounting policy judgement and estimation uncertainty

Preparing Consolidated Financial Statements conforming with IFRS requires management to make judgments, estimates and assumptions that affect the applicable policies, reported amounts and disclosure. Estimates and assumptions are continuously evaluated based on management's experience and other factors, including expectations of future events considered reasonable in the circumstances.

# GoviEx Uranium Inc.

## Notes to the Condensed Interim Consolidated Financial Statements

For the nine months ended September 30, 2023

(Stated in thousands of U.S. dollars except for shares and per share amounts)

Uncertainty about these judgements, estimates and assumptions could result in a material adjustment to the asset's carrying amount or liability in future periods.

Management has and will continue to exercise significant judgment in assessing the carrying value of GoviEx's exploration and evaluation assets during this period of increased political instability. Management has concluded that there had been no impairment to these values for the nine months ended September 30, 2023.

### 3. Marketable Securities

The Company holds 34 million ordinary shares of Tesoro Gold Inc., a publicly-traded company listed on the Australian Securities Exchange, resulting from a historical loan receivable settled in September 2022. The cost for these shares is recorded on the acquisition date and revalued at each reporting date based on the closing share prices. Any fair value gain or loss is recognized in the loss for the period.

	Kincora Copper Limited		Tesoro Gold Ltd.	
	Number of Shares	Fair Value	Number of Shares	Fair Value
Balance, December 31, 2021	403,658	\$ 35	-	\$ -
Received for loan settlement			34,000,000	824
Disposal	(403,658)	(16)		
Change in fair value		(19)		7
Balance, December 31, 2022	-	-	34,000,000	831
Change in fair value				(473)
Balance, September 30, 2023	-	\$ -	34,000,000	\$ 358

### 4. Mineral Properties

The Company's mineral properties are listed below; carrying value represents the initial acquisition of the properties:

Mineral Properties	September 30, 2023	December 31, 2022
Madaouela, Niger, 80%	\$ 65,234	\$ 65,234
Muntanga, Zambia, 100%	2,908	2,908
Falea, Mali, 100%	1,449	1,449
	\$ 69,591	\$ 69,591

#### a) Madaouela Project, Niger

The Madaouela Project, located in north-central Niger, consists of one mining permit, Madaouela I, and six exploration licenses under application to be renewed and granted.

The Madaouela I mining permit was granted on January 26, 2016, which is valid for ten years and renewable until the resource is fully depleted. According to the mining convention in May 2007 and definitive agreements with the Niger government in July 2019, Compagnie Minière Madaouela SA ("**COMIMA**"), a Nigerien mining company, was incorporated, owned 80% by GoviEx and 20% by the Niger government, of which 10% is a statutory free-carry.

Under the Nigerien mining code, a mining permit is subject to an annual area tax based on size at a prescribed rate due and payable annually in West African CFA Franc ("**XOF**").

In February 2022, the Niger government approved the Company's application to reduce the size of the Madaouela 1 mining permit by 50%, removing the previously unexplored section. The Company has also applied for an exploration license covering the area dropped. As a result, the 2023 area tax of \$1,017 (XOF 608 million) is reduced by 50% from the previous years and was paid in May 2023.

# GoviEx Uranium Inc.

## Notes to the Condensed Interim Consolidated Financial Statements

For the nine months ended September 30, 2023

(Stated in thousands of U.S. dollars except for shares and per share amounts)

---

### Non-controlling interest ("NCI")

Non-controlling interest represents the 20% ownership of the Niger government in COMIMA. It was initially recognized and measured based on net assets of \$65,234 upon the share issuance of 20% Niger government ownership.

As of September 30, 2023, the NCI totalled \$10,072 (December 31, 2022 - \$10,288), and the net loss attributable to the NCI for the nine months ended September 30, 2023 was \$1,080 (September 30, 2022 - \$3,480). The net loss includes area tax, technical consulting, and general administration expenses.

#### b) Muntanga Project, Zambia

The Muntanga project consists of three contiguous mining permits: Muntanga and Dibbwi were granted on March 26, 2010, and Chirundu on October 9, 2009; these permits are valid for 25 years.

On June 25, 2020, the Mining Cadastre Department of Zambia issued a letter to the Company revoking the Chirundu mining permit due to the breach of the Mines and Minerals Development Act, 2015 provisions. On May 5, 2021, the Chirundu mining permit was reinstated, subject to commencing a feasibility study in 2023 and mine development by the end of 2024.

#### c) Falea Project, Mali

The Falea project is a multi-element project containing three exploration licenses, Falea, Bala and Madini, held by the Company's wholly-owned subsidiary in Mali.

On January 17, 2023, the Company entered into a Share Purchase Agreement ("**SPA**") with African Energy Metals Inc. ("**AEM**") to sell the Falea project for a total value of CAD 5.5 million along with a 3% net smelter royalty. However, the SPA was terminated on June 3, 2023, due to AEM's non-success to meet certain closing conditions outlined in the agreement.

On August 25, 2023, the Falea license expired after its grant in August 2015. The Company intends to reapply for the Falea license once the government removes the current moratorium on new applications.

## 5. Share Capital

On May 11, 2023, the Company closed a bought-deal private placement, led by Eight Capital and Sprott Capital Partners, of 85,714,20 units at Canadian dollars ("**CAD**") 0.175 per unit for gross proceeds of \$11,128 (CAD 15 million).

Each unit consists of one common share and one common share purchase warrant exercisable at \$0.19 until May 11, 2025.

The Company incurred \$927 share issuance costs, including \$746 underwriters' commission and expenses paid in cash and issued 2,566,426 underwriter compensation warrants exercisable at CAD 0.175 until May 11, 2025.

The agent warrants issued are considered equity-settled share-based payments for the services related to the share issuance. Thus, these warrants were valued at \$136 under the Black-Scholes option-pricing model and recorded in equity with the assumptions: 80% volatility, two years expected life, 3.65% risk-free interest rate and nil dividend rate.

# GoviEx Uranium Inc.

## Notes to the Condensed Interim Consolidated Financial Statements

For the nine months ended September 30, 2023

(Stated in thousands of U.S. dollars except for shares and per share amounts)

### 6. Share-based Compensation

#### a) Stock options

The Company has a stock option plan, which authorizes the Company to issue options up to 10% of the issued and outstanding common shares. Share options are granted at an exercise price equal to the value of the Company's common shares on the grant's date.

Options are forfeited if optionees leave before the options vest, and options vested shall expire 30 days after the employee leaves unless otherwise determined by the Board of Directors.

A summary of the Company's stock option movements as of September 30, 2023, is as follows:

	Number of options	Weighted average exercise price (CAD)
Outstanding, beginning of period	47,362,500	0.21
Granted	13,380,000	0.115
Expired	(8,408,750)	(0.22)
Forfeited	(48,750)	(0.225)
Outstanding, ending of period	52,285,000	0.18
Exercisable, ending of period	32,795,000	0.18

The following table lists the stock options outstanding and exercisable as of September 30, 2023:

Price (CAD)	Expiry date	Outstanding	Exercisable
0.135	August 26, 2024	7,420,000	7,420,000
0.14	August 27, 2025	7,425,000	7,425,000
0.31	March 18, 2026	1,000,000	750,000
0.273	June 29, 2026	500,000	375,000
0.245	August 27, 2026	8,800,000	6,600,000
0.39	December 1, 2026	500,000	250,000
0.225	September 27, 2027	13,260,000	6,630,000
0.115	August 15, 2028	13,380,000	3,345,000
		52,285,000	32,795,000

On September 25, 2023, 8.15 million options expired.

The fair value of the 13.38 million options granted was estimated using the Black-Scholes option-pricing model with the following assumptions: 74% volatility, 5-year expected life, 3.5% risk-free interest rate and nil dividend rate.

\* High professional fees in 2023 were related to the Delta Mali SPA.

### 9. Related Party Disclosures

Related parties include the board of directors and officers, close family members and enterprises controlled by these individuals, and consultants performing similar functions.

#### a) Key management compensation

Key management includes the board of directors and the Company's executive officers. Directors' fees are paid semi-annually. The following table lists compensation awarded to key management:

	Three months ended September 30,		Nine months ended September 30,	
	2023	2022	2023	2022
Salaries	\$ 164	\$ 151	\$ 487	\$ 469
Directors' fees	-	-	52	54
Share-based compensation	225	204	469	433
	\$ 389	\$ 355	\$ 1,008	\$ 956

#### b) Global Mining Management Corporation ("GMM")

GMM is a private company owned by its shareholders, including the Company. GMM provides GoviEx's Vancouver office with furnished office space, equipment and communication facilities, corporate administrative, and finance and accounting support on a cost-recovery basis. GoviEx has been a shareholder of GMM since October 25, 2007, and maintains a long-term deposit of \$173 (CAD 0.215 million) with GMM.

The following charges were incurred in the ordinary course of operations, including the salary of the CFO:

	Three months ended September 30,		Nine months ended September 30,	
	2023	2022	2023	2022
Salaries and benefits	\$ 84	\$ 82	\$ 264	\$ 262
Corporate overhead	6	18	20	57
	\$ 90	\$ 100	\$ 284	\$ 319

As of September 30, 2023, \$60 (December 31, 2022 – \$89) was owed to GMM and included in the Company's accounts payable and accrued liabilities.
